# About Us

With our innovative and solution-oriented team, we offer modern and effective solutions to our customers using the latest technologies. We aim to maximize customer satisfaction with after-sales support.

With our young and dynamic structure, we constantly improve the quality of our products and produce pioneering solutions in the sector to fully meet the needs of our customers.

In addition to the machines in our portfolio, we offer flexible and personalized solutions by designing and manufacturing machines suitable for special needs in line with the demands of our customers.

#### **Pile Driving Machine**

**Maximun Post Height:** 

It is a machine that performs pre-drilli with DTH, ground screwing, core hole drilling for asphalt, and hole drilling with drill and auger for hard ground with high efficiency.

Hydraulic Hammer Power: 950 Joule
Hydraulic Hammer Weight: 260 kg
Hydraulic Hammer Number of Blows Per Minute: 620 ÷ 1500 n/min.
Required Oil: 30-60 l/min.
Required Pressure: 120-150 bar
Transport 2600 mm x 1600 mm x 1800 mm
Dimension(LxWxH):

2600 mm

**Total Weight:** 1500 Kg

#### **ACCESSORIES ON REQUEST**

**Required Pressure** 

# QUANTUM 500T (TRUCK MOUNTED)

#### **Pile Driving Machine**

It is designed for the driving of solar panels that produce safe electricity, driving of safety barriers on highways, driving of fences, in construction projects and for various purposes.

This pile driver drives the poles with great precision thanks to its compact design, durability and easy use.

Engine:	Yanmar 4TNV88/ Stage III 35,4 Kw (47,5 Hp)
Maximum Post Height:	2700 mm
Hydraulic Hammer Power:	950 Joule
Hydraulic Hammer Weight	260 Kg
Hydraulic Hammer Number of Blows Per Minut	620 ÷ 1500 n/min.
Hydraulic System Flow Rate	70 ÷ 100 l/min.
Hydraulic Oil Tank Capacity	80L
Diesel Tank Capacity	40L
Operating Pressure	180 Bar
Elektrical System	12 V
Transport 110	00mm x 1900mm x 1800mm
Total Weight	1850 Kg 4078 lbs

# ACCESSORIES INDESTRUCTIONS BY BY DRAULIC AUGER

### **HYDRAULIC AUGER**

Quantum Hydraulic Earth Auger is a highly efficient tool designed for excavation in various terrains and soil types.

The auger operates both clockwise and counterclockwise.

Hole diameters can be customized between 100 mm and 450 mm, while the shaft length can be produced up to 3 meters.

# ACCESSORIES

## **DTH HAMMERS**

### **DTH HAMMERS**

The QUANTUM DTH Hammers are designed to optimize the use of compressed air flow and incorporate the most efficient materials for each component. They are capable of drilling through compacted soil, rock, and concrete. Hole diameters can be customized between 2 inches and 10 inches, with shaft lengths available up to 3 meters.

DTH Size (inch)	Drill Bit Range
2"	65mm - 80mm
3"	85mm - 105mm
3,5"	95mm - 105mm
4"	110mm - 130mm
5″	127mm - 152mm
6"	152mm - 203mm
8"	203mm - 254mm
10"	254mm - 305mm

# ACCESSORIES INNOSIS

#### **BLADE RAISER**

The Quantum Barrier Mounting attachment streamlines the installation of steel beam guard rails, improving efficiency and precision. Designed for use with crawler-mounted pile drivers, the system begins with barrier segments being bolted together and placed on the ground. Once attached, the Quantum Barrier Mounting attachment lifts the segments, facilitating their positioning and ensuring accurate alignment for blade placement.

This allows piles to be securely installed into the ground and bolted to the rail with ease, reducing manual labor and enhancing safety on-site.

#### EXTRACTOR KIT

The Quantum Extractor Kit is an impact-driven system designed to quickly and safely remove stuck piles from compact soil, rock, or concrete. With durable materials and a modular design for various pile sizes, it ensures efficient, reliable performance for construction and infrastructure projects.

# ACCESSORIES INNOSIS

## **REMOTE CONTROL**

The Quantum Remote Control is a custom-engineered system designed to provide seamless control over all machine functions with unmatched precision and ease. Featuring a long-lasting battery with up to 10 hours of operation on a single charge, it ensures uninterrupted performance for demanding tasks. Its ergonomic design and intuitive interface allow operators to manage complex operations efficiently, enhancing productivity and safety across various applications.

#### **AUTO-LEVELING**

The Quantum Extractor Kit is an impact-driven system designed to quickly and safely remove stuck piles from compact soil, rock, or concrete. With durable materials and a modular design for various pile sizes, it ensures efficient, reliable performance for construction and infrastructure projects.

# ACCESSORIES GPS SYSTEM

#### **GPS SYSTEM**

The Quantum GPS System can be retrofitted to your existing pile driver to enhance the accuracy and efficiency of pile installation for solar farm projects. Equipped with advanced GPS guidance, it uses your project's CAD design data to precisely locate pile points, eliminating the need for surveyors to mark individual stakes. The system also offers full autonomous functionality, enabling self-driving and auto-positioning of the pile driver at target locations. This streamlined process accelerates pile installation, saving both time and money.

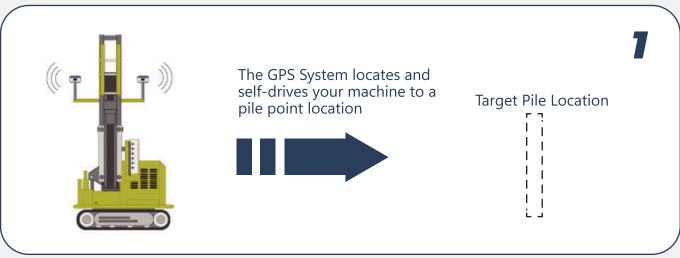

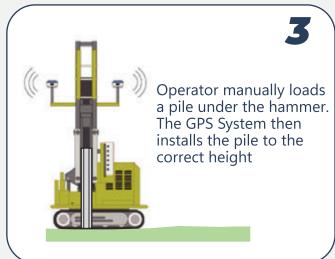

# ACCESSORIES INDES GPS SYSTEM

By fitting the Semi Autonomous option to your machine, the system will be able to drive your machine to each pile point location with just a push of a button. The system can also control your mast and hammer to ensure that it positions itself exactly over the target pile location. The system is also equipped with a height sensor so that it can install your piles to the desired height without requiring string lines or lasers.

#### **AUTONOMOUS SYSTEM: THREE EASY STEPS**

# CERTIFICATES

## **OUR GLOBAL PRESENCE**

INNOSIS Machinery is preferred across a wide range of regions, from the United States to Brazil and Kazakhstan.

With a rapidly growing global distributor network, we are becoming a larger international family every day, currently operating in over 20 countries. Through the delivery of high-quality products and customer-focused services, INNOSIS is recognized as a reliable business partner in diverse regions and aims to become one of the leading players in the global market.
